

# NOVITOS INTERNATIONAL COMPANY

*Integrated Engineering & Industrial Solutions*

*HVAC • MEP • Civil Construction  
Structural Steel • Specialty Chemicals*

*Delivering reliable engineering solutions for infrastructure and industrial growth.*

# Overview

Novitos International Company, based in Riyadh, Saudi Arabia, delivers integrated solutions across engineering services, structural steel supply, specialty chemicals, and industrial project support.

The company works with clients across construction, infrastructure, energy, and industrial sectors, providing reliable and cost-effective solutions tailored to modern project requirements.

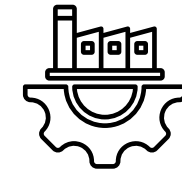

With strong global supply partnerships and an experienced engineering team, Novitos combines technical expertise, dependable sourcing, and responsive service to deliver high-quality outcomes and long-term value for its clients.

solution

# Key Capabilities and Offerings

## Industry Partnerships

Novitos collaborates with trusted global manufacturers to supply structural steel components and specialty industrial chemicals that meet international quality standards.

## Integrated Solutions

We provide solutions across HVAC systems, MEP engineering, structural fabrication, industrial materials, and civil construction supporting diverse infrastructure and industrial projects.

## Client-Focused Delivery

Novitos emphasizes reliable service, customized solutions, and long-term partnerships that help clients achieve efficient and sustainable project outcomes.

# Integrated EPC Services

*Novitos provides Engineering, Procurement, and Construction (EPC) services for HVAC, MEP, civil construction, and industrial fabrication projects.*

*From engineering design and procurement to construction and project consultancy, Novitos delivers efficient and reliable solutions for commercial, industrial, and infrastructure developments.*

## **Key Services**

- HVAC system design and installation
- MEP engineering and project execution
- Civil construction and infrastructure works
- Structural and industrial fabrication
- Engineering consultancy and project support

# Structural Steel Solutions

Novitos supplies high-quality structural steel solutions designed for durability, precision, and compliance with international standards. Our structural steel components support construction and industrial projects requiring strength, reliability, and efficient installation.

## Applications

- Industrial facilities
- Commercial buildings
- Warehouses and logistics centers
- Infrastructure projects

## Products

- Structural beams and columns
- Steel frames and trusses
- Platforms and walkways
- Custom fabricated steel structures

# Specialty Chemical Solutions

*Novitos supplies industrial specialty chemicals designed to enhance operational efficiency and process reliability.*

## **Key Areas**

- *Water treatment chemicals*
- *Mineral processing chemicals*
- *Oilfield chemicals*

*Our solutions support industrial plants, mining operations, and oil & gas facilities, ensuring reliable performance in demanding environments.*

# Why Choose Novitos:

- ✓ Integrated engineering and industrial solutions
- ✓ Strong global supply partnerships
- ✓ Experienced engineering and technical team
- ✓ Reliable project execution and support
- ✓ Commitment to quality, safety, and efficiency
